REDLIGHT THERAPY CO.

Testing and Documentation

Every product in this range comes with supporting documents. The pages that follow are one-page summaries, prepared by Redlight Therapy Co. from third-party test reports, certificates and instrument measurements, with manufacturer details removed.

Product	Pages in this pack	Model named on the documents
300 LED Red Light Panel	EMC test summary, compliance certificate summary, light output measurement, LED measurement	RT1500S+
Red Light Therapy Hair Cap	EMC and electrical safety certificate summary	QZ022, QZ036
Red Light Therapy Knee Strap	EMC test summary, declaration of conformity summary	K8 (K6 and K9 also named)
Red Light Therapy Face Mask	EMC test summary, certificate of conformity summary	V-F2509 (V-F239 and V-F239Pro also listed)
Starter LED Face Mask	EMC test summary, certificate of compliance summary	SA-P02M01 (tested); SA-P02M01 to M09 covered

How to read these pages

- **EMC** (electromagnetic compatibility) tests check that a device does not disturb other electronics, and keeps working normally when exposed to interference.
- **Electrical safety** is covered by the low voltage certificate for the hair cap.
- **Light measurements** for the panel show the colours of light it gives out (660 nm red and near-infrared) and how steady the output is.
- **“Not applicable”** on a page means the lab recorded that test as not relevant to the product, for example mains tests on a battery-powered device.

Please note

- These pages are summaries, not certificates. Each is based on a single tested sample and does not assess every unit produced.
- The documents cover EMC, electrical safety and light measurements. They do not make or support any medical or health claim.
- Product images are for illustration.

EMC Test Summary

Heated Knee Pad | Summary of Test Report No. SAIL260112045E055

Product	Heated Knee Pad	**Result**	**PASS** on all tests applicable to this product
Model tested	K8 (prototype production sample)	**Date of issue**	Jan. 16, 2026
Models on cover	K8, K6, K9	**Test dates**	Jan. 12 - 14, 2026
Test voltage	DC 5V, battery supplied	**Operating mode**	Working
Test lab	Shenzhen SAIL Testing Technology Co., Ltd.	**Class**	Class B limits (EN IEC 55014-1)

Standards Tested Against

EN IEC 55014-1:2021 (emissions) • EN IEC 55014-2:2021 (immunity) • EN IEC 61000-3-2:2019+A1:2021+A2:2024 • EN 61000-3-3:2013+A1:2019+A2:2021 • EN 61000-4-2:2009

Emissions (EN IEC 55014-1)

Test	Range / standard	Result	Worst-case margin below limit
Radiated disturbance	30 MHz - 1 GHz, 3 m	**Pass**	7.5 dB (vertical, 744.9 MHz, peak)
Conducted disturbance, mains terminals	150 kHz - 30 MHz	Not applicable	Battery supplied
Disturbance power	30 - 300 MHz	Not applicable	No cable out
Harmonic current emissions	EN IEC 61000-3-2	Not applicable	Battery supplied
Voltage fluctuations and flicker	EN 61000-3-3	Not applicable	Battery supplied
Clicks	EN IEC 55014-1, section 4.2	Not applicable	Listed as N/A in the report summary

Immunity (EN IEC 55014-2:2021)

Test	Standard	Level applied	Criterion	Result
Electrostatic discharge	EN 61000-4-2	Air ±8 kV; coupling planes (HCP / VCP) ±2 and ±4 kV	B required; A observed	**Pass**
Radiated RF electromagnetic field	EN IEC 61000-4-3	3 V/m, 80 - 1000 MHz, 80% AM, all four sides, both polarisations	A required; A observed	**Pass**
Electrical fast transient / burst	EN IEC 61000-4-4	-	-	Not applicable
Surge	EN IEC 61000-4-5	-	-	Not applicable
Injected currents (conducted RF)	EN IEC 61000-4-6	-	-	Not applicable
Voltage dips and interruptions	EN IEC 61000-4-11	-	-	Not applicable

“Not applicable” is as recorded by the lab: the product is battery supplied (no mains input), so mains-port emission and immunity tests do not apply. Criterion A: normal operation continues during the test. Criterion B: normal operation continues after the test.

About this document

This page is a summary prepared by the seller from test report SAIL260112045E055, issued by Shenzhen SAIL Testing Technology Co., Ltd. It is not the laboratory's report and is not a certificate. Test results apply only to the sample tested (model K8). The full original report is available on request.

Conformity Certificate Summary

Heated Knee Pad | Declaration of Conformity, EMC Directive 2014/30/EU

Document	Declaration of Conformity
Certificate No.	SAIL260112045E055C
Date of issue	Jan. 16, 2026
Issued by	Shenzhen SAIL Testing Technology Co., Ltd., Shenzhen, China
Product	Heated Knee Pad
Models	K8, K6, K9
Directive	EMC Directive 2014/30/EU
Test report No.	SAIL260112045E055

Standards Listed

EN IEC 55014-1:2021 • EN IEC 55014-2:2021 • EN IEC 61000-3-2:2019+A1:2021+A2:2024 • EN 61000-3-3:2013+A1:2019+A2:2021

What the certificate states

• The submitted products were tested against the listed standards and found in compliance with the EMC Directive.

• The laboratory acknowledges that the manufacturer may issue a declaration of conformity and apply the CE marking in accordance with European Union rules.

• Valid only in connection with test report SAIL260112045E055.

• Based on a single evaluation of the submitted sample(s). It does not imply an assessment of the whole production, and other relevant directives have to be observed.

About this document

This page is a summary prepared by the seller from a declaration of conformity issued by Shenzhen SAIL Testing Technology Co., Ltd. It is not a certificate and does not itself contain test results. The test report named above holds the measured results.
